Mahoning County Sanitary Engineer  
940 Bears Den Road,  
Youngstown, Ohio.

Dear Sir:

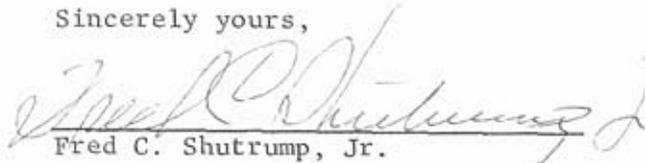

With reference to the petition originally submitted by the undersigned in January of 1959, and thereafter approved by the Commissioners of Mahoning County, providing for reimbursement of the expense of public sewer and water facilities installed, under Revised Code Section Number 307.73, it became necessary subsequent to such approval to install an additional sanitary sewer line not set forth specifically in said petition.

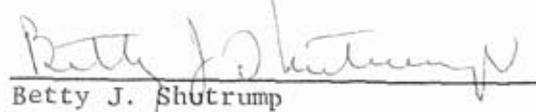

Said additional line, which is a twelve (12") inch sanitary sewer, is situated parallel to Meridian Road and approximately 200 feet westerly thereof, and extends from Edinburgh Drive on the north to the 21-inch trunk line sewer on the south.

The expense to the undersigned of the installation of said additional line was \$6.40 per lineal foot of sewer, which would mean a charge or assessment to parties tapping said line of \$3.20 per lineal foot of frontage served. This would apply, however, only to that property east of the line in question (between the sewer line and Meridian Road) as the property to the west thereof was covered in the original petition and is exempt from charge.

Will you please modify your records to include this 12-inch line, and provide for assessment of potential users at the rate of \$3.20 per lineal foot.

Sincerely yours,

  
Fred C. Shutrump, Jr.

  
Betty J. Shutrump
